

Vision designed for you

Facility Fee Statement

Chesapeake Eye Surgery Center is a Medicare-approved, state licensed freestanding ambulatory surgical facility offering outpatient ophthalmic surgical services.

The facility fee charged for your surgery is a global fee that includes the surgical center costs for all supplies used during your short stay with us, including all pre-operative, intra-operative and post-operative care. This fee also includes other overhead costs, such as salaries for the staff, rent, utilities. Chesapeake Eye Surgery Center provides the same standard of care that you would receive in a hospital in a more individualized setting.

This facility fee is separate from your surgeon's fee for performing the surgery and separate from the fee for anesthesia services.

Chesapeake Eye Surgery Center is a participating provider with Medicare, Blue Cross Blue Shield, and most major insurance carriers. As such, the center accepts the allowed charge(s) as determined by these carriers as payment in full. You are responsible for all deductible and/or co-insurance amounts.

If you have any questions about the facility fee and would like to speak with someone in the surgery center, please call (410) 571-9881, Monday through Thursday 8:00am to 5:00pm or Friday 8:00am to 3:00pm.
